

QUATREFOLIC® SUSTAINABILITY

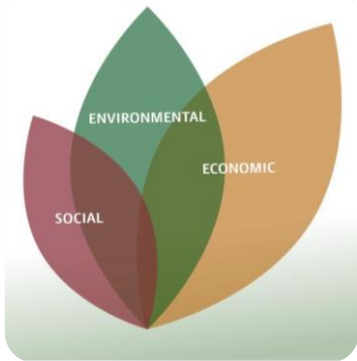

2023

Sustainability

In business, sustainability refers to doing business without negatively impacting the environment, community, or society as a whole.

3 dimensions of sustainability are :

- environment
- society
- economy

Quatrefolic® Sustainability

Quatrefolic is the only methyl folate glucosamine salt on the market, and it is manufactured in a **European plant** that complies with **ISO 14001** and **ISO 45001** environmental and sustainability standards.

A photograph of a modern, grey industrial building with a white roof. The words "Gnosis BioResearch" are printed in large white letters on the side of the building. The building is surrounded by green trees and bushes. In the background, there are rolling hills covered in a dense forest under a cloudy sky.

Gnosis BioResearch

ISO 14001

The goal of ISO 14001 is to create an EMS capable of identifying and controlling the environmental impact of its activities, products and services. Continually improving its environmental performance.

ISO 45001

ISO 45001 is the international standard for Occupational Health and Safety (OH&S) Management System.

It provides practical and actionable solutions for the continual improvement of the health and safety of employees and for assessing and controlling the risks and opportunities a company might face.

Quatrefolic® Quality and Environmental System Management

European Plant in Pisticci (Italy),
GMP plant certified according to ICH Q7

ISO 45001: occupational health and safety management systems
ISO 14001: environmental management systems (EMS)

*Hazard Analysis and
Critical Control Points*
